**Gadi Benjamini &  
Dr. Adi Naor Pomeranz**

"Epsilon is where we first met, built, and launched our company. **This wouldn't have happened without Epsilon.**"

**Guy Globerman &  
Tal Ely**

"Epsilon is more than a program. They **built us as a team**, broke our assumptions, and co-built MantaRay from the ground up."

**Daphna Langer  
Co-Founder & CEO**

"Epsilon is **where you want to start** - it's the smartest shortcut to building a deep tech company."

**Michael Pechatnikov  
Co-Founder & CTO**

"The program was 10X better than I expected and the people were incredible. It's a **perfect match for serial entrepreneurs**."

**Nir Marom  
Co-Founder & CEO**

"You can't ask for anything better than Epsilon - getting **direct access** to top global deep tech VCs and stakeholders."

**Nitai Alush-Aben &  
Shai Hirsch**

O K I M A T A

"Unmatched commitment, **true skin in the game**, and a network that delivers. Epsilon is the best partner to build with."

**Dr. Nimrod Gazit &  
Dr. Roi Levi**

"Top-tier talent, exposure to massive challenges, and a real chance to build **something truly big**. That's Epsilon."

## Frequently Asked Questions

### What is a Venture Studio?

A Venture Studio co-creates startups from scratch, helping founding teams to meet and come together, acting as a co-pilot in their ideation and exploration phases, all the way through launching a company and scaling it.

### Do I need an idea for a startup to join Epsilon?

No. Individual founders or teams without an idea can join the program as we provide an ideal platform for deep tech ideation. If you have an idea or a technology, you'll be able to explore, develop, and validate it in the program.

### Do I need a team to join Epsilon?

No. We are looking for both individuals with strong backgrounds and drive that are ready to build a deep tech startup, as well as very strong teams that are in the process of building their startup.

### How many people are expected to be part of the program?

We expect over 600 applicants, of which 30 individuals will join the sixth cohort of Epsilon.

### How much time do I need to dedicate to the program?

Participants are required to attend all sessions during the entire program in Tel Aviv – 2 sessions a week on average.

### Will Epsilon provide me with business challenges or ideas?

As part of the program, you will meet corporates, domain experts and potential customers that will share their challenges and needs on necessary innovation.

### From which areas of expertise can participants come from?

Business entrepreneurs, scientists, coders, engineers, deep tech enthusiasts – all are top-tier talent looking to build a deep tech startup. We aim to reach a 50-50 ratio between business and tech/science participants.

### Who owns my IP?

The company you build (in which Epsilon will be a small co-founder) will own the intellectual property that is created.

### What type of ventures do you look for?

We look for real game-changing ideas that can disrupt traditional industries. Our focus is on strong teams that seek to build solutions that can disrupt traditional industries with a clear and scalable path for commercialization.

### What does the Teams Program include and who can participate?

Teams, and individuals that manage to build a strong team by the end of the program, can participate in the Teams Program. Selected teams will receive tailor-made support for their validation and fundraising process.

### What type of support can I expect from Epsilon during the program?

The program includes content by leading experts, exposure to challenges, and in-depth ideation processes. In addition, you become part of a community of deep tech founders that work together towards a shared mission and receive access to Epsilon's network and assets.

### What does the selection process look like?

Following the submission of your application in the link attached to this file we will review your information. In case your application will be relevant to the program we will reach out to schedule an introduction meeting.

### How quickly can I go from inception to funding?

We've had founders secure funding in as little as six months—or even faster—from the day they began the program. Depending on your stage, you'll have the opportunity to build your company and attract funding from top investors. We'll be here to support you throughout this journey.

### What do I need to do to get started?

Participants are required to agree to the program's terms and conditions and sign the onboarding agreement.

### How do I apply to the 6<sup>th</sup> cohort?

Simply click on the white button to the right to complete your application process, or visit our website and submit your information in the relevant section.
